

Dear Sirs:

I am writing regarding petition 04-160. It has been brought to my attention that this petition is an attempt to stifle satellite radio and regulate what is broadcast to me.

Please be certain that I can do my own regulation, by either changing the station, or turning it off. I am certain that you do not need to involve yourself in regulating what is sent out over my satellite radio.

Please do not vote for anything that restricts my freedom of choice, especially for satellite radio.

Thank you,

Jim Hughes
